DEPARTMENT OF COMPUTER SCIENCE
Faculty of Science, Palacký University Olomouc

Vás zve na / Invites you to the

Informatický seminář
Seminar on Information Science

The seminar is devoted to the current problems in computer science. Speakers in the seminar present their original contributions, report on results by other authors, work in progress, open problems, and parts of books. The seminar is open for general public.

Program na letní semestr 2013/2014
Program for summer semester 2013/2014

3.4. Manuel Ojeda-Aciego (University of Malaga, Spain)
    *New links between mathematical morphology and fuzzy property-oriented concept lattices*
    seminar of project “MCIN”

3.4. Pablo Cordero Ortega, Manuel Enciso García-Olivero (University of Malaga, Spain)
    *Tableaux-like methods to compute minimal keys and algorithms to compute bases of implications with negative attributes*
    12:15, seminar of project “Reintegrace”

17.4. Petr Krajča (UP Olomouc)
    *Query Language and Optimization Techniques for Similarity-Based Databases*

7.5. Hugh Darwen (University of Warwick, UK)
    10:00, seminar of project “Reintegrace”

7.5. Hugh Darwen (University of Warwick, UK)
    *The Third Manifesto: Why? What? How? Part II*
    10:45, seminar of project “Reintegrace”

21.5. Mohammed J. Zaki (Rensselaer Polytechnic Institute, NY, USA)
    *Mining Complex Patterns: Applications in Bioinformatics*
    seminar of project “Reintegrace”
The seminar is held in room no. 5.006 on the 5th floor of the main building of the Faculty of Science, 17. listopadu 12, Olomouc, starts at 11:30 a.m. (if not indicated otherwise) and lasts usually for 45 to 60 minutes.
